Height (B)	1120mm	1120mm
Width (C)	1224mm	1224mm
Weight	110kgs	125kgs

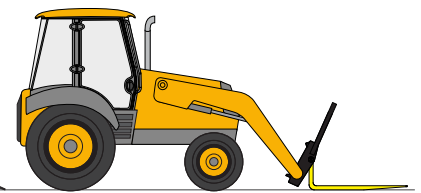

FLOATING TYNE DESIGN

A floating tyne design offers unparalleled safety for tractors. Unlike forklifts, tractors are able to crowd their pickup past a horizontal position, allowing the machine to be placed in an unsafe position, which could cause it to tip over. Digga's pallet fork design allows the tynes to swing freely from a single fixed point, ensuring load and operator safety. Furthermore, the design prevents the machine's weight to be placed on the tynes, which could cause them to break.

FIXED TYNE PALLET FORKS

DIGGA PALLET FORKS

IF YOU CARE ABOUT SAFETY, THEN A FLOATING TYNE DESIGN IS THE ONLY SAFE CHOICE FOR YOUR TRACTOR
